

ENVIRONMENTAL
CLEARANCE

PARIVESH

(Pro-Active and Responsive Facilitation by Interactive,
and Virtuous Environmental Single-Window Hub)

Government of India
Ministry of Environment, Forest and Climate Change
(Issued by the State Environment Impact Assessment
Authority(SEIAA), Puducherry)

To,

The VP
MS. SOLARA ACTIVE PHARMA SCIENCES LIMITED
Mathur Road, Periakalpet Puducherry -605014

Subject: Grant of Environmental Clearance (EC) to the proposed Project Activity under the provision of EIA Notification 2006-regarding

Sir/Madam,

This is in reference to your application for Environmental Clearance (EC) in respect of project submitted to the SEIAA vide proposal number SIA/PY/IND3/247066/2021 dated 29 Dec 2021. The particulars of the environmental clearance granted to the project are as below.

- | | |
|--|---|
| 1. EC Identification No. | EC22B058PY151130 |
| 2. File No. | 247066/SEIAA/PY/EE/2022 |
| 3. Project Type | New |
| 4. Category | B2 |
| 5. Project/Activity including Schedule No. | 5(f)-API |
| 6. Name of Project | Proposed Change In Product Mix Without Increase In Total Production Capacity (4812 TPA) |
| 7. Name of Company/Organization | MS. SOLARA ACTIVE PHARMA SCIENCES LIMITED |
| 8. Location of Project | Puducherry |
| 9. TOR Date | N/A |

The project details along with terms and conditions are appended herewith from page no 2 onwards.

Date: 27/04/2022

(e-signed)
Smt. SMITHA. R, I.A.S
Member Secretary
SEIAA - (Puducherry)

Note: A valid environmental clearance shall be one that has EC identification number & E-Sign generated from PARIVESH. Please quote identification number in all future correspondence.

This is a computer generated cover page.

Director (DSTE) /
Member Secretary (SEIAA)

No. SEIAA/PY/EE/247066/2021

Sir,

Sub: DSTE/SEIAA, U.T of Puducherry Proposal for Environmental Clearance submitted by M/s. Solara Active Pharma Sciences Limited, Puducherry for proposed change in Product Mix without increase in Total Production Capacity (4812 TPA) – Issued.

Ref: (i) Your Online Application No. SIA/PY/IND3/247066/2021 dated 29.12.2021 in Parivesh Portal.
(ii) Minutes of the 29th SEAC Meeting held on 15.03.2022 and 16.03.2022.
(iii) Minutes of the 24th SEIAA Meeting held on 20.04.2022.

* * *

This has reference to your application cited (i) above submitted to the State level Environment Impact Assessment Authority (SEIAA), Government of Puducherry seeking Environmental Clearance under the Environment Impact Assessment Notification, 2006 and its subsequent amendments. The proposal has been appraised by the State Level Expert Appraisal Committee (SEAC) in its 29th SEAC Meeting held on 15.03.2022 and 16.03.2022 as per the prescribed procedure in the light of provisions under the EIA Notification, 2006 on the basis of the mandatory documents enclosed with the application *viz.*, Form-I, Form-IA, Conceptual Plans and the additional clarifications furnished by the proponent.

It is noted that the project proposal involves proposed change in Product Mix without increase in total production capacity (4812 TPA). Project details are as under:

Name of the Project	Change in product mix without increase in total production capacity (4812 TPA) by M/s. Solara Active Pharma Sciences Limited, Puducherry.			
Project Location	R.S. Nos. 30/4pt, 32/1A, 32/2, 32/3, 33/1, 33/10, 33/11, 33/13, 33/2, 33/3, 33/4, 33/5, 33/6, 33/9, 34/1, 34/2, 34/3, 34/4, 34/5, 34/6, 34/7, 34/8, 35/4, 35/5, 35/6, 35/7, 36/5, Periyakalapet, Mathur Road, Puducherry.			
Project Description – Product & Capacity	Product Name	Existing Quantity	Proposed Quantity	Total after change in product mix
	Ibuprofen	4308	-312	3996
	Ibuprofen DC	240	0	240
	Ibuprofen Lysinate	120	0	120
	Ibuprofen Sodium	20	0	20
	S+ Ibuprofen	100	0	100
	Pilot Scale R&D Operations	12	0	12
	Carisoprodol	12	-12	0
	Ammonium lactate	0	120	120
	Celecoxib	0	144	144
	Rebamipide	0	60	60
	Total (TPA)	4812	0	4812
Total land area	24.30 Acres (98338.93 Sq.m.)			
Green belt area	8.42 Acres (34.65%)			
Manpower	789 (Existing - 789 & Proposed - Nil)			
Power requirement	3860 KVA (Existing - 3860 & Proposed - Nil)			
Source of power	Puducherry Electricity Department			
Power backup	Existing - 2 x 1500 and 2 x 1010 KVA DG Sets Proposed - Nil			
Water Source	Bore well and Treated Sewage water from PWD STP.			

Water requirement

Total Water Requirement:

S. No.	Description	Existing	Proposed	After Change in product mix
1	Freshwater requirement (A)	110	No Change	110
2	Recycled water (B)	652	No Change	652
3	Treated sewage from PWD (C)*	566	No Change	566
Total (A+B)		762	-	762

*Note: Recycled water includes treated sewage water consumed from PWD STP: Approved treated sewage quantity by PWD is 590 KLD as per Water Consent.

Water Requirement Break-up:

Water requirement	Existing (KLD)	Proposed (KLD)	After change in product mix (KLD)	Total Break-up	
				Fresh water	Treated Water
Process	80	Nil	80	80	-
Non-Process (DM Plant)	16	Nil	16	16	-
Process cooling tower	323	Nil	323	-	323
Cooling tower (ZLD)	150	Nil	150	-	150
Boiler Feed	154	Nil	154	-	154
Domestic	29	Nil	29	4	25
Green belt	10	Nil	10	10	-
Total	762	Nil	762	110	652

Waste Water Generation:

Description	Existing (KLD)	Proposed (KLD)	After Change in product mix (KLD)	Treatment Units	Final Disposal Points
HTDS (from process)	50	No change	50	MEE and ATFD	ZLD facility
Domestic	25	No change	25		

Treated sewage water from PWD	566	No change	566	Biological ETP followed by RO.	Reused for Non process application
Effluent from, Non process, Boiler, coiling tower blowdown	11	No change	11		
Process effluent from Strides pharma sciences Ltd – Formulation division (non-EC category)	43	No change	43		
Total LTDS effluent	645	No change	645		
Total (HTDS + LTDS effluent)	695	No change	695		

Air Emissions

Details	Air Pollution Source			No. of Stacks			APC Measures
	Existing	Proposed	After change in product mix	Existing	Proposed	After change in product mix	
Stack Process	IBU	IBU + Celecoxib	IBU + Celecoxib	1	0	1	Existing Wet Scrubber/ Bag Filter
	S-IBU	S-IBU + Reba-Pimide	S-IBU + Reba-Pimide	0	0	0	Bag Filter
	IBU Lysine	IPCA + Ammonium lactate	IPCA + Ammonium lactate	0	0	0	Bag Filter
	IBU Sodium	IBU Lysine	IBU Lysine	0	0	0	Bag Filter
	DC-90	IBU Sodium	IBU Sodium	0	0	0	Bag Filter
	IPCA	DC-90	DC-90	0	0	0	Bag Filter
	Stack – Non Process (DG)	2 x 1500 KVA 2 x 1010 KVA	No change	2 x 1500 KVA 2 x 1010 KVA	4	0	4

Boiler – Bio Mass Briquette	2 x 16TPH boiler (1 in standby boiler) 1 X 12 Lac Kcal/hr Thermic Fluid Heater 1 X 10 Lac Kcal/hr Thermic Fluid Heater (Standby TFH)	No change	2 x 16TPH boiler (1 in standby boiler) 1 X 12 Lac Kcal/hr Thermic Fluid Heater 1 X 10 Lac Kcal/hr Thermic Fluid Heater (Standby TFH)	2	0	2	Multi cyclone Dust Collector going in for Bag Filter and then to Stack, 30 m AGL
Total No of Stacks				7	0	7	
Solid Waste							
Description	Quantity (Kg/day)			Method of Collection	Method of Disposal		
	Existing	Proposed	After change in product mix				
Organic	210.3	Nil	210.3	Collection in bins Manual	Existing: Composting and used as manure for gardening. Proposed: Compost in Organic waste convertor & will be used as manure for gardening.		
Inorganic	142.02	Nil	142.02	Collection in bins Manual	Authorized recyclers.		
Boiler ash (TPD) (from Bio-briquettes boiler)	5	Nil	5	Manual	Distributed to the local villagers for agricultural purposes, transport through trucks with water sprinkling & covered by tarpaulin.		
Hazardous Waste							

Name of the Hazardous Waste	Existing KLA/TPA	Proposed Quantity KLA/TPA	After Change in product mix Quantity KLA/TPA	Method of Stage / Disposal
Waste Sodium Dichromate Solution	22000	Nil	22000	Dispose to Authorized Vendor.
34.1 ETP Sludge	3	Nil	3	Sent to Co-processing in Cement Industries
5.1 Spent Lubricating Oil	4	Nil	4	Dispose to PPCC Authorized Vendor.
5.2 Waste / Residue containing Oil	150	Nil	150	Dispose to PPCC Authorized Vendor.
20.2 Spent Solvent	900	Nil	900	Dispose to PPCC Authorized Vendor.
20.3 Distillation Residue	48	Nil	48	Dispose to PPCC Authorized Vendor.
28.1 Process Residue / Waste	720	Nil	720	Dispose to PPCC Authorized Vendor.
28.2 Spent Catalyst / Spent Carbon	54	Nil	54	Dispose to PPCC Authorized Vendor
28.3 Off Specification Product	1	Nil	1	Dispose to PPCC Authorized Vendor.
28.4 Date Expired / Discarded Off Specification drugs / Medicines	1	Nil	1	Dispose to PPCC Authorized Vendor.
28.5 Spent Organic Solvent	36	Nil	36	Dispose to PPCC Authorized Vendor.
33.2 Sludge from Treatment of Wastewater arising out of cleaning / disposal of Barrels / containers	20	Nil	20	Dispose to PPCC Authorized Vendor.
33.3 Discarded Containers / Barrels / Liners, Contaminated with Hazardous waste Chemicals	250	Nil	250	Dispose to PPCC Authorized Vendor.
35.1 Chemical Sludge from Wastewater treatment	4800	Nil	4800	ATFD salts are collected directly dispose to nearby TSDF sites / Co processor.
34.4 Oil and Grease Skimming Residues	1	Nil	1	Dispose to PPCC Authorized Vendor.
35.2 Spent Catalyst	1	Nil	1	
35.3 Spent Carbon	90	Nil	90	
Spent Acid	0	Nil	0	
Total	29079	-	29079	

Project Cost	Rs. 211.3307 Crores (existing); No additional project cost for proposed change in product mix.
EMP Cost	Total Capital Cost - Rs. 40 Crores. Recurring Cost / Month - Rs. 1.5 Crores. No additional EMP cost for proposed change in product mix.

The project is covered under 5(f) Synthetic Organic Chemicals Industry in the Schedule to EIA Notification, 2006 and falls under B2 Category (as per amendment dated 27.03.2020, 15.10.2020 & 16.07.2021).

The proposal was appraised by SEAC in the 29th SEAC meeting held on 15 and 16th February 2022 and SEAC has recommended the case for issue of Environmental Clearance stipulating the specific conditions along with standard EC conditions prescribed by MoEFCC for Pharmaceutical / Chemical Industry sector. The proposal was examined by the SEIAA in its 24th Meeting held on 20.04.2022 and the Authority accepted the recommendations of SEAC. Based on the recommendations of SEAC, the SEIAA hereby accords Environmental Clearance to the above project under the provisions of EIA Notification dated 14th September 2006 and subsequent amendments subject to strict compliance of the following Specific and General conditions.

SPECIFIC CONDITIONS

- i) This clearance is issued under the provisions of the EIA Notification, 2016. All other statutory clearances as applicable to the project shall be obtained by the project proponent from the concerned competent authority including the Consent to Establish and Operate for change in product mix from the Puducherry Pollution Control Committee (PPCC).
- ii) The pollution and control measures with regard to waste water treatment and disposal, air and noise pollution control measures, hazardous waste and solid waste management and all risk mitigation measures shall be strictly implemented as per the Environmental Management Plan submitted by the project proponent and in consonance with existing rules and regulations.
- iii) There shall be no additional water requirement or waste water generation from the process.
- iv) No additional land shall be used / acquired for any activity of the project without obtaining proper permission.

- v) Environment and Safety Audit shall be carried out in different operating zones of the plant at least once in a year and the adequacy of environmental safeguards and plant / occupational safety shall be reviewed and necessary corrective measures shall be taken.
- vi) The proponent shall continuously monitor ambient VOC levels around the plant and implement necessary VOC control measures.
- vii) Fugitive emissions shall be controlled at 99.98% with effective chillers. VOCs shall be controlled at 99.997% with effective chillers / modern technology. The unit shall ensure Zero Liquid Discharge from the plant.
- viii) All the ETP Tanks shall be above the ground level to avoid any ground water contamination. Waste water shall not be stored in underground sumps / tanks.
- ix) The project proponent shall carry out regular monitoring of the ground water level and quality in and around the industry by establishing network of monitoring wells. Quarterly monitoring of water quality and water level shall be carried out through NABL accredited laboratory covering all seasons and reports shall be submitted to PPCC.
- x) Organic Waste Converter shall be installed for converting organic waste into manure and the manure shall be used for gardening.
- xi) The industry shall carry out energy audit through accredited agencies and take appropriate actions for energy conservation.
- xii) The project proponent has allocated 8.42 acres of land (34.65%) for green belt development. This area shall not be diverted for other use. Stratified green belt with tall trees and shrubs beneath should be developed and maintained properly to serve as effective sink for air pollutants.
- xiii) A separate Environment Management Cell (having qualified persons with Environmental Science / Engineering / Management specializations) equipped with full-fledged laboratory facilities shall be set up to carry out the Environmental Management and Monitoring functions.
- xiv) As per the MoEFCC OM dated 30.09.2020 superseding the OM dated 01.05.2018 regarding the Corporate Environmental Responsibility, the project proponent shall allocate an amount of Rs. 1.58 Crores towards environment conservation and community welfare activities, which shall be utilized over a period of three years. The said amount shall be utilized for activities like infrastructure creation for drinking water supply, sanitation, health, education, skill development, roads, cross drains, electrification including solar power, solid waste management facilities, scientific support and awareness to local farmers to increase yield of crop and fodder, rain water harvesting, soil moisture conservation works, avenue plantation, plantation in community areas, etc. within the project area. The

Project Proponent shall prepare a separate project report on the proposed environment conservation and community welfare activities in consultation with the District Collector and copy of the report shall be submitted to the District Collector, SEIAA, PPCC and Regional Office of MoEFCC. The activities shall be implemented in a time bound manner in consultation with the District Collector. The project progress report shall be submitted to the SEIAA, PPCC and Regional Office of MoEFCC as a part of the half yearly compliance report. The above fund allocated towards environment conservation support activities is to be in addition to the cost envisaged under the CSR budget of the company which will be allocated as per the rules prescribed by the Government of India / Companies Act 2013.

GENERAL CONDITIONS

I. Statutory compliance

- i) The project proponent shall obtain Consent to Establish / Operate under the provisions of the Air (Prevention & Control of Pollution) Act, 1981 and the Water (Prevention & Control of Pollution) Act, 1974 from the PPCC before commencement of production of the new products and shall submit copy of the same to SEIAA, Puducherry.
- ii) The project proponent shall obtain authorization under the Hazardous and other Waste Management Rules, 2016 as amended from time to time from PPCC.
- iii) The Company shall strictly comply with the rules and guidelines under Manufacture, Storage and Import of Hazardous Chemicals (MSIHC) Rules, 1989 as amended time to time. All transportation of Hazardous Chemicals shall be as per the Motor Vehicle Act (MVA), 1989.

II. Air quality monitoring and preservation

- i) The project proponent shall install 24x7 continuous emission monitoring system at process stacks to monitor stack emission with respect to standards prescribed in Environment (Protection) Rules, 1986 and the data to be transmitted to PPCC and CPCB online servers. This system shall be calibrated from time to time according to equipment supplier specification through labs recognized under Environment (Protection) Act, 1986 or NABL accredited laboratories.
- ii) The project proponent shall monitor fugitive emissions in the plant premises at least once in every quarter through labs recognized under Environment (Protection) Act, 1986.
- iii) The project proponent shall install system to carryout Ambient Air Quality Monitoring for common/criterion parameters relevant to the main pollutants released (e.g. PM₁₀ and PM_{2.5} in reference to PM emission, and SO₂ and NO₂ in reference to SO₂ and NO_x emissions) within and outside the plant area at least at four locations (one within and three outside the plant area at an angle of 120° each), covering upwind and downwind directions.

- iv) To control source and the fugitive emissions, suitable pollution control devices shall be installed to meet the prescribed norms and / or the NAAQS. The gaseous emissions shall be dispersed through stack of adequate height as per CPCB/PPCC guidelines.
- v) Storage of raw materials shall be either stored in silos or in covered areas to prevent dust pollution and other fugitive emissions.
- vi) The DG sets shall be equipped with suitable pollution control devices and adequate stack height so that the emissions are in conformity with the extant regulations and the guidelines in this regard.
- vii) National Emission Standards for Organic Chemicals Manufacturing Industry issued by the Ministry vide G.S.R. 608(E) dated 21st July, 2010 and amended from time to time shall be followed.
- viii) The National Ambient Air Quality Emission Standards issued by the Ministry vide G.S.R. No. 826(E) dated 16th November, 2009 and amendment from time to time shall be complied with.

III. Water quality monitoring and preservation

- i) The project proponent shall provide online continuous monitoring for treated effluent. The unit shall install web camera with night vision capability and flow meters in the channel/drain/pipelines carrying effluent within the premises.
- ii) As already committed by the project proponent, Zero Liquid Discharge shall be ensured and no waste/treated water shall be discharged outside the premises.
- iii) The effluent discharge shall conform to the standards prescribed under the Environment (Protection) Rules, 1986 or as specified by the Puducherry Pollution Control Committee while granting Consent under the Air/Water Act, whichever is more stringent.
- iv) Total fresh water requirement shall not exceed the proposed quantity or as specified by the Committee. Prior permission shall be obtained from the concerned regulatory authority/CGWA in this regard.
- v) Process effluent/any wastewater shall not be allowed to mix with storm water. The storm water from the premises shall be collected and discharged through a separate conveyance system.
- vi) The Company shall harvest rainwater from the roof tops of the buildings and storm water drains to recharge the ground water and utilize the same for different industrial operations within the plant.

IV. Noise monitoring and prevention

- i) Acoustic enclosure shall be provided to DG set for controlling the noise pollution.
- ii) The overall noise levels in and around the plant area shall be kept well within the standards by providing noise control measures including acoustic hoods, silencers, enclosures etc. on all sources of noise generation.
- iii) The ambient noise levels should conform to the standards prescribed under Environment (Protection) Rules, 1986 viz., 75 dB(A) during day time and 70 dB(A) during night time.

V. Energy Conservation measures

- i) The energy sources for lighting purposes shall preferably be LED based or advanced energy efficient lighting systems.

VI. Waste management

- i) Hazardous chemicals shall be stored in tanks, tank farms, drums, carboys etc. Flame arresters shall be provided on tank farm and the solvent transfer through pumps.
- ii) Hazardous wastes like waste dichromate solution, ETP Sludge, waste oil, spent solvent, distillation residue, process residue, spent catalyst / carbon, off specification products, date expired / discarded off specification drugs, spent organic solvents, Sludge from Treatment of Wastewater arising out of cleaning / disposal of Barrels / containers, Discarded Containers / Barrels / Liners, Contaminated with Hazardous waste Chemicals, Chemical Sludge from Wastewater treatment, Oil and Grease Skimming Residues and spent acid shall be disposed off to the cement plants for co-processing, reprocessing units or TSDFs after obtaining necessary Hazardous Waste Authorization from PPCC.
- iii) The company shall undertake waste minimization measures as below:-
 - a) Metering and control of quantities of active ingredients to minimize waste.
 - b) Reuse of by-products from the process as raw materials or as raw material substitutes in other processes.
 - c) Use of automated filling to minimize spillage.
 - d) Use of Close Feed system into batch reactors.
 - e) Venting equipment through vapour recovery system.
 - f) Use of high-pressure hoses for equipment cleaning to reduce waste water generation.

VII. Green Belt

The green belt of 5-10 m width shall be developed in more than 33% of the total project area, mainly along the plant periphery, in downward wind direction, and along road sides etc. Selection of plant species shall be as per the CPCB guidelines in consultation with the Forest Department.

VIII. Safety and Human health issues

- i) Emergency preparedness plan based on the Hazard Identification and Risk Assessment (HIRA) and Disaster Management Plan shall be implemented.
- ii) The unit shall make the arrangement for protection of possible fire hazards during manufacturing process and material handling. Firefighting system shall be as per the norms.
- iii) The Project Proponent shall provide Personal Protection Equipment (PPE) as per the norms of Factory Act.
- iv) Training shall be imparted to all employees on safety and health aspects of chemicals handling. Pre-employment and routine periodical medical examinations for all employees shall be undertaken on regular basis.
- v) Occupational health surveillance of the workers shall be done on a regular basis and records maintained as per the Factories Act.
- vi) There shall be adequate space inside the plant premises earmarked for parking of vehicles for raw materials and finished products, and no parking to be allowed outside on public places.

IX. Corporate Environment Responsibility

- i) The company shall have a well laid down environmental policy duly approved by the Board of Directors. The environmental policy should prescribe standard operating procedures to have proper checks and balances and to bring into focus any infringements / deviation / violation of the environment / forest / wildlife norms / conditions. The company shall have defined system of reporting infringements / deviation / violation of the environmental / forest / wildlife norms / conditions and / or shareholders / stake holders. The copy of the board resolution in this regard shall be submitted as a part of half yearly compliance report.
- ii) A separate Environmental Cell both at the project and company head quarter level, with qualified personnel shall be set up under the control of senior Executive, who will directly report to the head of the organization.
- iii) Action plan for implementing EMP and environmental conditions along with responsibility matrix of the company shall be prepared and shall be duly approved by competent authority. The year wise funds earmarked for environmental protection measures shall be kept in separate account and not to be diverted for any other purpose. Year wise progress of implementation of action plan shall be reported to the SEIAA,

PPCC and Regional Office of MoEFCC along with the Six-Monthly Compliance Report.

- iv) Self-environmental audit shall be conducted annually. Every three years third party environmental audit shall be carried out.

X. Miscellaneous

- i) The project proponent shall make public the environmental clearance granted for their project along with the environmental conditions and safeguards at their cost by prominently advertising it at least in two local newspapers of the District, of which one shall be in the vernacular language within seven days and in addition this shall also be displayed in the project proponent's website permanently.
- ii) The copies of the environmental clearance shall be submitted by the project proponents to the Heads of local bodies, Panchayats and Municipal Bodies in addition to the relevant offices of the Government (Industries Department and PPCC) who in turn has to display the same for 30 days from the date of receipt.
- iii) No further expansion or modifications in the plant shall be carried out without prior Environmental Clearance from SEIAA / MoEFCC, as applicable. In case of any deviation or alterations in the project proposal from those submitted to the SEIAA for clearance, a fresh reference shall be made to the SEIAA / MoEFCC, as applicable, to assess the adequacy of the conditions imposed and to add additional environmental protection measures required, if any.
- iv) The project proponent shall upload the status of compliance of the stipulated environment clearance conditions, including results of monitored data on their website and update the same on half-yearly basis.
- v) The project proponent shall monitor the criteria pollutants level viz., PM₁₀, SO₂, NO_x (ambient levels as well as stack emissions) or critical sectoral parameters, indicated for the projects and display the same at a convenient location for disclosure to the public and put on the website of the company.
- vi) The project proponent shall submit six-monthly compliance report on the status of the compliance of the stipulated environmental conditions including results of monitored data in hard and soft copies on 1st June and 1st December of each calendar year in respect of the conditions stipulated in the Environmental Clearance issued to SEIAA, PPCC and Regional Office of CPCB and MoEFCC.
- vii) The project proponent shall submit six-monthly reports on the status of the compliance of the stipulated environmental conditions on the website of the Ministry of Environment, Forest and Climate Change at environment clearance portal.

- viii) The project proponent shall submit the Environmental Statement for each financial year in Form-V to the Puducherry Pollution Control Committee as prescribed under the Environment (Protection) Rules, 1986, as amended subsequently and put on the website of the company.
- ix) The project proponent shall inform the Regional Office as well as the Ministry, the date of financial closure and final approval of the project by the concerned authorities and start of production operation by the project.
- x) The project authorities must strictly adhere to the stipulations made by the Puducherry Pollution Control Committee and the U.T. Government.
- xi) Concealing factual data or submission of false/fabricated data may result in revocation of this environmental clearance and attract action under the provisions of Environment (Protection) Act, 1986.
- xii) The SEIAA may revoke or suspend the clearance, if implementation of any of the above conditions is not satisfactory.
- xiii) The SEIAA reserves the right to stipulate additional conditions if found necessary. The Company in a time bound manner shall implement these conditions.
- xiv) The Puducherry Pollution Control Committee and Regional Office of MoEFCC shall monitor compliance of the stipulated conditions. The project authorities should extend full cooperation to the Officer (s) of the PPCC / Regional Office of MoEFCC by furnishing the requisite data / information / monitoring reports whenever requested.
- xv) The above conditions shall be enforced, inter-alia under the provisions of the Water (Prevention & Control of Pollution) Act, 1974, the Air (Prevention & Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986, Hazardous and Other Wastes (Management and Transboundary Movement) Rules, 2016 and the Public Liability Insurance Act, 1991 along with their amendments and Rules and any other orders passed by the Hon'ble Supreme Court of India / High Courts and any other Court of Law relating to the subject matter.
- xvi) Any appeal against this EC shall lie with the National Green Tribunal, if preferred, within a period of 30 days as prescribed under Section 16 of the National Green Tribunal Act, 2010.

XI. VALIDITY:

The validity of this Environmental Clearance is for **Ten years** from the date of issue of EC.
